Profile

AI/ML aspirant with strong proficiency in Python and hands-on experience in Machine Learning using scikit-learn, TensorFlow, and PyTorch. Skilled in data preprocessing, feature engineering, model building, and evaluation through academic and project work. Seeking an AI/ML Engineer role to apply analytical thinking and technical expertise in developing efficient, data-driven machine learning solutions.

Skills

Programming & Querying: Python(AI,ML), SQL, C++

Tools: Tableau, Power BI (DAX Measures, Calculated Columns, Interactive Dashboards, Scheduled Refresh via Gateway), Excel (Pivot Tables, VLOOKUP, Power Query)

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn,TensorFlow, and PyTorch

Analytics Concepts: EDA, Time Series Analysis, Data Cleaning, ETL, Data Modelling, KPI Development

Projects

Football Match Analytics Dashboard (Power BI, SQL, DAX, Excel) GitHub Link

- Led a team to develop a Power BI Football Analytics Dashboard using SQL and DAX, analyzing **49K+ matches** and **143K goals** to deliver performance KPIs.
- Secured **2nd place in the institute-level Data War analytics competition** for dashboard insights and presentation.

Finding Similarities between Legal Case Documents (AI)

- Built Developed legal document similarity system using **TF-IDF**, **LegalBERT** embeddings, and **cosine similarity** to retrieve relevant case precedents.
- Preprocessed **3000+** legal documents and generated embeddings using SentenceTransformers, improving semantic similarity detection.

Customer Segmentation (ML)

- Performed RFM analysis on retail transaction data to engineer customer behavior features.
- Implemented K-Means clustering using Scikit-learn to segment customers into behavioral groups.
- Used the Elbow Method to select optimal cluster count and improve clustering performance.

Internship Data Science Virtual Dec 2023 - Jan 2024

- Performed EDA, cleaning, and visualization on real-world datasets using Python
- Built ML models (Decision Tree, Logistic Regression) for customer behavior prediction and sentiment analysis, delivering actionable insights.

Education

B.E. Computer Engineering 2021 – 2025
Govt. College of Engineering and Research, Avasari Khurd, Ambegaon, Pune
CGPA:8.85
SGPA: Fourth Year:9.05 Third Year: 9.07 Second Year: 8.45 First Year: 8.86

Intermediate (12th Grade) 2020 – 2021
Percentage: 96.17%
